GOT AN OPEN CHIMNEY?

Lower your energy bills
AND improve your comfort
in one cheap easy DIY step!

An open flue can increase draughts through your house by up to 30%.

Reduce the airflow up your flue by fitting a chimney balloon, or even some crunched up newspaper or a bag of rags.

“Nancy at CAFS came to visit us and helped us understand our energy use better and made sure we could use our boiler properly.

Now I want to help other people understand their bills better and help them save money.

Some people really struggle. I know one guy who is paying 60 pound a week. How can people survive like that without getting into debt?

Everyone should be able to get
